SENATE TO ADJOURN.

Present Extra Session Drawing to a Close.

THIS WEEK PROBABLY THE LAST

Nothing Yet to Do Except a Few Confirmations—The Disputed Senatorial Seats Left Over Until Next Session. Hardly a Quorum Can Be Obtained. The Foreign Missions That Have Not Yet Been Filled.

WASHINGTON, April 10.—The senate has practically concluded its labors and is now waiting for an intimation from the president to bring the extraordinary session to a close. All idea of passing upon the questions involved in the appointment of the three senators from the northwest has been abandoned and that matter will be left for disposal at the next session. The reasons for this course are: First, that many senators are still undecided how to vote upon the propositions involved; second, many others desire to address a full senate, and third, the final and conclusive reason, that there is not a quorum in the city at present.

It is said that about Tuesday the senate will appoint a committee to wait upon the president and ask whether he has further business to lay before the body. It is assumed among the senators generally that the only really important matter that remains to be communicated is the nomination of the court of appeals of the District of Columbia, for, unless this court is filled before the adjournment, there is likely to be a deadlock in the District judicial business.

Although the impression prevails that nearly all of the foreign missions have been filled, the records disclose the fact that no nominations have yet been made to 20 of these important places. The list is: Argentine Republic, Bolivia, Brazil, China, Columbia, Ecuador, Haiti, Hawaii, Italy, Russia, Corea, Liberia, Paraguay and Uruguay, Persia, Portugal, San Domingo, Siam, Sweden and Norway, Turkey and Venezuela.

Most important of these perhaps is Russia, and it is surmised in some quarters that the delay in making a change there arises from a desire to await the possible action of the Russian government raising the grade of its mission at Washington to an embassy, which will admit of the nominations of another ambassador by the president in that case. But in the majority of these cases there is not good reason why the places can not be filled by appointment subject to confirmation when the senate meets again next session, and therefore the impression prevails at the Capitol that the present session will adjourn some time this week.

Senate's Saturday Session.

WASHINGTON, April 10.—The senate Saturday received the nominations of Eustis to be an ambassador to France and of Belmont & Company to be fiscal agents of the navy department at London. It went into executive session, and after a few confirmations adjourned till Monday.

ASPHYXIATED BY GAS.

Two Ohio Men Die in a Chicago Boarding House.

CHICAGO, April 10.—Illuminating gas in Hyde park has claimed two more victims. Eloy Benson and Jesse Kenig were asphyxiated Saturday night at their boardinghouse, 285 Fifty-third street. The two men roomed together and went to bed at 10 o'clock. A man named Sorensen also slept in the same room, but he had gone to the theater and the men expecting that he would return soon left the gas burning. Sorensen did not return.

Sometime during the night the gas went out, it is thought, on account of the inequality of the pressure, and the fluid pouring from the burner filled the room. Yesterday morning the two men were found dead in bed. They were from Canton, O., and will be taken there for burial.

Convict Commits Suicide.

PITTSBURG, April 10.—With a common tableknife Joseph Nowak, prisoner No. 9413, cut his throat in his cell in the Western penitentiary last night. Despondency was the cause, his wife not having visited him since 1891. Nowak was a Hungarian and had never mastered the English language. For this reason he could communicate with no one. In 1890 he was sentenced in Fayette county for four years on a charge of assault and battery. He was 31 years of age. He was in a dying condition when discovered and had ceased to breathe before the physician arrived.

Victim of a Practical Joke.

NEW YORK, April 10.—Christopher S. Smith, a stable hand, is lying in Bellevue hospital, the victim of a practical joke and severe burns. On Saturday night Smith, John Reilly and Patrick Ford, also hostlers, went into McGurrell's saloon on Tenth avenue. They imbibed freely, and during the ensuing hilarity McDonald threw a quantity of alcohol on Smith's clothes. Then some one threw a lighted match and instantly he was aflame. His companions tore off his clothing, and had the fire out in a jiffy, but not before Smith's hands and face were severely burned.

Only for Great Americans.

NEW YORK, April 10.—The park commissioners have decided that Union Square was to be reserved for the presidents and the greatest Americans, and Roscoe Conkling's statue must be placed elsewhere. The location was selected because it was the scene of Mr. Conkling's last struggle with the elements on the memorable night of March 12, 1888.

The Oldest and Best Known Hotel in the Country Arrested.

CHICAGO, April 10.—Rock Cannon, 60 years old and the oldest and best hotel thief in the country, is locked up at the Harrison street station. He was arrested by Officers Stark and Heilman Saturday night on a charge of disorderly conduct. He gave the name of George Leslie and was not known until yesterday when Michael Evans, superintendent of the bureau of identification, saw and recognized him.

Cannon was arrested in 1891 for burglarizing the Grace hotel in this city, but jumped his bonds. In June last he was caught in the Eastern hotel, Memphis, and shot at the watchman. He was sentenced to eight years in the penitentiary, but made his escape. The authorities at Memphis have been advised of the arrest and an answer is now awaited.

Anti-Pinkerton Bill Passed.

MADISON, Wis., April 10.—The assembly Saturday passed the anti-Pinkerton bill as follows: "The use or employment of bodies of armed men to act as militiamen, policemen, or peace officers, who are not duly authorized or empowered to act in such capacity under the laws of this state, is hereby prohibited and declared to be unlawful; and no person, firm, company or corporation shall hereafter use or employ any such body of armed men to act in the capacity aforesaid for the protection of person or property, or for the suppression of strikes within the state."

Well Known Mining Official Suffocated.

WILKESBARRE, Pa., April 10.—District Superintendent William Samuels of the Lehigh Valley Coal company entered the Dorrance shaft late Friday afternoon for the purpose of exploring a number of worked-out chambers. At midnight, the superintendent not having arrived home, a searching party went into the shaft and found it on fire. At 10 o'clock Saturday morning his charred remains were found. He had suffocated. It is presumed that he had ignited a pocket of gas with his lamp. He was well known throughout the mining district.

Water Poisoned With Paris Green.

GREENFIELD, Ind., April 10.—On Wednesday last Philander Boyd and two others went to a field to plow, where they buried a jug of water in the ground to keep cool. Young Boyd did not go to the field again until Saturday, becoming thirsty he went to get a drink from the jug. After drinking he turned sick. He remained unconscious until Sunday morning, when he related the facts as above. Paris green was found in the water in large quantities.

Philadelphia Postmaster Resigns.

PHILADELPHIA, April 10.—Postmaster John Field has sent his resignation to President Cleveland. Although the postmaster did not fix any definite day as to when the resignation should take effect, it was a final decision, the convenience of the government only being considered in the matter. Mr. Field declines to make any statement in regard to the matter until the executive has had an opportunity to act upon it.

SCRANTON, Pa., April 10.—The disappearance of the three small boys from the mining settlement on Thursday of Pyne, has caused a great deal of anxiety among the miners of that section. Yesterday and last night the whole country around Pyne was searched, and this morning 400 men went into the mountains looking for them. Some think they might have been kidnapped.

RIOTING AT HULL.

Striking Dockmen Assault Two Steamship Crews.

BRITISH TROOPS CALLED OUT.

A Hot Battle Follows in Which Many People Are Injured on Both Sides—A Gunboat Now Lying in the Harbor to Suppress the Next Disturbance—Other Foreign News.

HULL, April 10.—The striking dockmen yesterday made a furious assault on the crews of the steamships Montebello and Romeo at the Hull docks, but were driven off by two companies of lancers, who had been sent there in anticipation of trouble between the dockers and the nonunion men who had taken their places on the wharves.

During the affray the two steamships steamed out into the roads so as to be out of reach of the enraged strikers. In the hot battle that ensued between the lancers and the strikers, many of the soldiers were seriously injured by stones that were thrown by the dock laborers. Not a few of the dockers also have good cause to remember the day, for they received very rough treatment at the hands of the military, many of whom had been struck by missiles.

Early in the day trouble was feared and the militia had not only been called to guard the docks but two gunboats had also been sent for and were on the way when the strikers made their onslaught on the crews of the Romeo and Montebello. One of the boats arrived late in the afternoon after the trouble had subsided and now lies at anchor with her guns trained to sweep the docks with grape and canister in case the strikers renew their assault.

Business at the Hull docks was resumed this morning, the work of loading and unloading vessels being done by nonunion men, of whom there are many in the town willing to work if they are assured protection from the riotous strikers. The streets and drinking places along the water fronts are filled with strikers and their sympathizers, who are bitter in their denunciations of the shipping federation.

He was a member of the constitutive and legislative assemblies. He became minister of public instructions in the cabinet inaugurated by the message of Oct. 31, 1849. In 1870 he was elevated to the rank of minister president of the council of state in the first parliamentary cabinet of the empire. He received the grand cross of the Legion of Honor in 1857, and subsequently was decorated with many foreign orders. He wrote voluminously on historical and economic subjects.

ATTEMPTED ROBBERY AND MURDER

A Wealthy Marylander Brutally Assaulted By Two Negroes.

ELKTON Md., April 10.—The people hereabouts had scarcely ceased to talk about the recent horrible murders by negroes in Maryland of Dr. Hill and Mr. Bowie when they are called upon to contemplate and discuss the attempt at robbery and murder by the negroes of Mr. David E. Gaschel, a well to do resident of the neighborhood of Rising Sun.

Mr. Gaschel was on his way from his home to Rising Sun on Friday night, and passing through a belt of woods he was stopped by two negroes who demanded his money or his life. He said he had no money and the negroes at once fell upon him, beating him almost into insensibility, and then pitched him over an embankment and into the run. Out of this Mr. Gaschel scrambled, but he was hurled back again into the water and kept underneath by sticks in the hands of the brutes. Thinking they had drowned him, the negroes fled.

Mr. Gaschel was able soon, however, to drag himself out of the water and to a neighbor's house. The physician has hopes of his recovery. Now the country roundabout is being scoured for the negroes, whom Mr. Gaschel describes, and speedy punishment waits them if caught. Four negroes were hanged and four others are serving a life sentence for the murder of Hill. The murderers of Mr. Bowie have not yet been brought to trial.

ATTACKED BY BRIGANDS.

An American Badly Done Up in the Mexican Mountains.

CHIHUAHUA, Mex., April 10.—The mineral mule train, which arrived here Saturday night from the Batopilas mines district, in the western part of this state, brought the first news of an attack by brigands made upon an American mining man, L. F. Tendick, formerly of Colorado.

Mr. Tendick and a "moso," or servant, set out from Guayamas, in the state of Sonora, about three weeks ago for an overland trip to the Batopilas district, where Tendick contemplated investing in mines. When within about 60 miles of Batopilas the American was suddenly attacked by a band of 10 brigands. Mr. Tendick and his "moso" attempted to defend themselves, but were overpowered and beaten into insensibility by the outlaws.

Mr. Tendick was robbed of a large amount of money and both burros which they were riding were taken. After hours of severe suffering, upon regaining sense Mr. Tendick sought accommodations at the home of a goat herder in the mountains, while his servant made his way to Batopilas and secured the necessary assistance to bring Mr. Tendick to camp. The authorities were notified and are in pursuit of the bandits.

TROOPS CALLED OUT.

United States Soldiers Ordered to Antlers.

CHOCTAW WAR PROBABLY OVER

The Choctaw Nation to Be Placed Under Martial Law—Locke Still Fortified but Will Surrender as Soon as the National Troops Arrive.

WASHINGTON, April 10.—Secretary Hoke Smith has requested the war department to send troops immediately to the scene of trouble among the Choctaws in the vicinity of Antlers, I. T., to maintain peace and preserve life and property. The request for troops was made on receipt of a long report from Indian Agent Bennett, who investigated the Choctaw troubles.

The agent reports he is thoroughly convinced that the militia, acting under Governor Jones' orders, were the aggressors, and the Locke party would surrender if he would agree to protect them from the so-called militia.

His conclusions are that the calling out of the militia was unnecessary and a violation of the Choctaw constitutions and laws and that the mob banded together as militia exists for the evident purpose of murder and intimidation of political opponents in order that the party at present in power may perpetuate their authority at the next elections. There is no peaceable settlement of the trouble practicable, he adds, unless the United States places the Choctaw nation under martial law.

Locke Elated at the Order.

PARIS, Tex., April 10.—The Locke people are greatly elated over Agent Bennett's report and believe with the coming of federal soldiers order will be restored and that they can return to their business which they were forced to forsake in defense of their lives. Locke and his men were at Antlers this afternoon. They returned to their fort saying they would not disband until the soldiers come and the militia leave the country. Locke's enemies predict he will yet be killed.

HEKLA SAFE IN PORT.

The Overdue Steamer Lands Her Eight Hundred Passengers.

NEW YORK, April 10.—The overdue Thingvalla line steamer Hekla, in tow of the America, of the National line, arrived in this port late Saturday evening. The Hekla was delayed by a broken shaft. She had on board about 800 passengers. There were thousands of sightseers at the pier, many of whom had friends on board the disabled vessel and who had hastened to the dock to congratulate them on their safe arrival. At Ellis island the crush was so great that additional officers had to be stationed in the waiting room.

The question now at issue is whether the captain of the fast French line steamship La Normandie did or did not offer to take off the passengers of the Hekla when the former vessel sighted her on March 27. The captain of the Normandie holds that he made the offer and submitted his log to show that he did, while, on the other hand, Captain Thomson of the Hekla is most emphatic in his denial that the Normandie made any such offer.

Captain Thomson declares that the other had simply promised to report him to his owners, and had then steamed away regardless of the hundreds of lives which he had left in jeopardy.

On the other hand, it is alleged that several of the Hekla's passengers say that Captain Thomson, after parting with the Normandie, had told them of that vessel's offer to take off his passengers.

At all events the National liner, America, which turned back and towed the Hekla to New York, will come in for a pretty sum in the way of salvage. Persons who ought to know are of the opinion that the amount will be greatly in excess of \$100,000, while some think it will reach \$250,000.

Upon one point every one is agreed, and that is that Captain Thomson deserves great credit for accepting a tow as soon as one was offered instead of further endangering the lives of his passengers in the hope of saving salvage money by working a patently helpless ship into port without assistance.

SOMETHING TO BE THANKFUL FOR.

Miss Bessie Mitchell Has Promised Not to Write a Book.

CHICAGO, April 10.—Miss Bessie Mitchell, who has traveled around the country in three weeks, set her foot upon ground again Sunday afternoon. She left the city on a wager that she could travel 10,000 miles without leaving the railroad car, and has succeeded in accomplishing the feat.

The route took Miss Mitchell to Portland, thence south into Mexico, back to St. Louis and finally to Boston. She was weary of riding but had enjoyed the adventure thoroughly. In several towns she was visited by curious women but the trip was without special incident. Miss Mitchell promises not to write a book.

THE Albany Argus commenting on the result of the election for Supervisors in the forty-two counties of New York which have voted this year gives "the net Democratic gain in these counties is twenty-five." A net gain of twenty-five Supervisors in forty counties is not a bad showing. New York's all right.

A Judge With Nerve.

"All honor to Judge Cantrell for the stand he took at Frankfort Thursday," says the Louisville Post. "In a perfectly plain case, involving the guilt of a billiard and pool room proprietor for allowing minors to play in his establishment, some obliging friends were among the jury. Judge Cantrell dismissed the whole panel and informed these accommodating gentlemen upon whom the obligations of an oath sit so lightly that he would order juries from an adjoining county if the administration of the law required it, and that if local juries would not do their duty he would find jurors who would neither hesitate nor fear to protect the public. The press and the people of the district should uphold the cause of the Judge and put a proper sentiment behind a judicial officer who has the courage to take such a stand. A few such declarations would give justice a tremendous impetus in Kentucky."

Newspaper English.

Every newspaper is more or less troubled with communications from zealous critics who seem to find delight in announcing the discovery of an error in a paper, either grammatical or typographical.

The following, from the Buffalo Commercial, can be read with profit by this numerous class: It is the easiest thing in the world to find errors in even the best regulated paper; but the mistakes are surprisingly few when one takes into consideration the time in which a paper is prepared for public inspection. The best way to get even with some of those who are given to finding fault with "newspaper English" and pointing out little slips, typographical or grammatical, would be to publish letters sent in to the press in the precise shape in which they are sent—making no corrections in the spelling or the construction. Were this done we fancy there would be less said about the slipshod style of the newspaper man.

Having on hand to-day three times the largest and best selected stock of monuments and tombstones ever before seen in Maysville at one time, I invite those needing such work to call and examine it, and learn prices. I will guarantee that they can do just as well at home, if not better. They will find it to their advantage to see what they are buying, in place of buying from designs. I have no agents traveling in Mason County. I propose to give the benefit of the 15 or 20 per cent. that I would have to pay such agents to those buying the work.

A remarkably little locomotive is running on the Panther Gap railway at Limestone, Ky. It has eight wheels, all drivers, but the distance between front and rear axle is only sixteen feet. It weighs but eight tons and is designed to work on sharp curves and steep grades. It is stated on pretty good authority to have hauled a train of four empty cars weighing 16,000 pounds up a grade of 800 feet to the mile and around curves of fifty feet radius where the grade was 450 feet to the mile, at a speed of twelve miles an hour. It has but one pair of cylinders, which are rigidly attached to the middle of the frame.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

REV. J. B. BRINEY was greeted by a large audience last night at the Christian Church, of which he formerly had pastoral charge. Chairs had to be placed in the aisles to accommodate the people who gathered to hear him, and many had to content themselves then with seats in the gallery. His lecture on "Genesis and Geology" was very entertaining and instructive, and was rendered additionally interesting by stereopticon views illustrating the subjects discussed. He lectures again to-night on the same subject, and all should hear him. Admission free. The public cordially invited.

DIED.

Died, near this city, March 6, 1893, Alexander, infant son of Claude and Jennie Worick. Surely death loved a shining mark when he snatched from our midst this little blossom, the idol of our hearts. His life was brief, but so lovely, and the sunbeam of the home. When we saw the bright eyes of our darling close forever it was hard for us to see behind the dark cloud the hand of Him who doeth all things well, but he is there ever near, whispering sweet words of comfort, and we know "our darling" has only gone before and resting in the arms of Jesus.

Partial List of Stallions and Jacks Making the Season in This Section.

County Court Day in April of late years has become Stallion Show Day, and one has only to look at the splendid, high-spirited animals this afternoon to see that the breed of horses in this section is being steadily improved. An examination of the pedigrees of the horses will substantiate this statement. As the BULLETIN stated a year ago, farmers and other stockmen are finding out that it is just as easy to raise a finely-bred colt that will sell for a fancy price as to grow a "scrub" animal that hardly pays for its keeping.

The job department of the BULLETIN has already printed quite a list of cards this season, giving pedigree and description of stallions and jacks now in service in Mason or adjoining counties. Following shows the number to date:

J. D. B., No. 12,439—Sired by Governor Wilkes, he by the great George Wilkes: dam Lady Chief. J. D. B. is the property of Dr. W. H. Hord, and makes the season at Dr. Hord's stable, in Orangeburg, at \$10.

Bourbon Blue Jeans—A fine combined saddle and harness stallion. One of the highest bred sons of Blue Jeans; dam by Coons' Halcorn, by Virginia. Makes season on same terms and at same place as J. D. B.

Cerro Gordo—Fine Spanish Jack. Makes season also at Dr. Hord's stable on same terms as his horses.

Red Bird, Jr.—A fine combined stallion, by Fitch's Red Bird, a grandson of old Southern Eclipse; dam by Yellow Jacket, by Tom Hal. Red Bird is the property of M. P. Porter and J. M. Evans, and makes season at Geo. V. Evans' stable near Fern Leaf, at \$10.

Red Mornan—Can be found at J. D. Raymond's stable near Mayslick. Mornan weighs 1,600 pounds, is sixteen hands high and has good action and great power. Terms \$3.

Royal Denmark—Standard-bred saddle horse, foaled in 1890, sired by Sterling Denmark, a grandson of old Washington Denmark. Dam by Clark Chief. Pronounced one of the best saddle colts in Kentucky. Terms \$15 to insure. Makes season at John Clark's stable east of Mayslick. Mr. Clark and Mr. P. P. Parker paid \$1,000 a few weeks ago for Royal Denmark.

Castellan—Fine Spanish Jack imported in 1888, formerly owned by Laytham & Piper, now by Parker & Clark. Makes season at same place as Royal Denmark at \$10.

Diamond King—By Black Diamond, dam by an Abdallah. Fine saddle stallion. Makes season at W. L. Moran's stable at Mornansburg, at \$10.

Bald Cockspur—All purpose stallion, at same place, at \$6. Traces back to Wells' Roan Cockspur and Tiger Whip.

Jim Lee—Saddle stallion, by Bay Messenger. Traces back to Imported Messenger and Pilot, Jr. Makes the season at J. Laytham's stable near Mayslick, at \$10.

Grover—Fine young jack, stands at same place as Jim Lee, at \$8.

John G.—Fine combined stallion, by Melrose Wilkes, son of Red Wilkes. Stands at R. H. Beckett's stable at Mt. Gilead at \$8.

Young Boston—Fine Spanish jack, tracing back to one of Wilson's importations. Makes season at John and George Adams' stable three and a half miles from Maysville, on Mt. Carmel pike, at \$8.

Cluster—Premium saddle and harness stallion, makes season at G. K. Winter's stable at Minerva, at \$15. Has the blood of Chester Dare and Black Squirrel, two of the most noted saddle stallions in Kentucky. Has taken premiums at Maysville, Sharpsburg, Ripley and Germantown.

Blazes, 16,971—By Princeton 2:19½. Makes season at S. A. Shanklin's stable near Mayslick at \$10. Blazes traces back to Hambletonian 10, the greatest of sires, and also to Mambrino Patchen 11 and to Pilot, Jr., 12.

Melvin Rohmer—Standard-bred stallion, by Rohmer 7:20, he by King Rene. Makes season at Richard Kenaday's stable on Quick's Run Lewis County, at \$10.

Egypt—Superb draft stallion, has the blood of two of the most noted draft stallions imported from France. Makes season at \$10 and \$12, at Jos. McNutt's stable, three miles west of Maysville, on Germantown pike.

Diamond King, Jr.—Model stallion, makes season at S. E. Mastin & Son's stable, seven miles west of Washington on Pleasant Ridge pike, at \$10. A natural sandler, tracing back to Imported Hedgeford.

Courier—Record 2:29, makes season at Dr. John A. Reed's farm near Minerva, at \$10. Courier traces back through both sire and dam to Alexander's Abdallah. He also has the blood of Mambrino Chief. Jim Blaine, a typical draft horse, by St. Julian. Makes season at same place as Courier, and on same terms.

Red Bird—Fine, all-purpose stallion. Traces to Sargent's Eclipse and old Copperbottom. Makes season at J. B. Key's stable, on Horseshoe pike, between Lewisburg and Washington, at \$10.

Emperor—Finally-bred jack, makes season at same place and on same terms as Red Bird.

Albion Chief—Fine combined stallion, tracing back to Mambrino Chief and Cook's Whip. Makes season at Brannon Bros' stable near Lewisburg, at \$10.

Barcelona—Fine Spanish jack, makes season at same place and on same terms as Albion Chief. Reflector, Jr., 20,233—By Reflector 5:52, a standard bred young horse. Makes season at H. A. Calvert's, Tuckahoe Stock Farm, near Tuckahoe, at only \$10.

Ptolemy, 5,179—Half brother to the famous Nancy Hanks, 2:05, "queen of the turf." Ptolemy is full brother to Citizen, 2:21¾, and half brother to Maxey Cobb 2:13¾. He is standard bred under the highest rules, his sire being the noted Happy Medium. First dam Patsy F., by Mambrino Patchen. Makes season at H. A. Calvert's Tuckahoe Stock Farm, near Tuckahoe, at \$30.

The Limestone Stock Farm's splendid list of stallions is advertised elsewhere in the BULLETIN. These horses are on exhibit at Wells & Biggers' stables to-day. Breeders are invited to call there and see them. See advertisement for further particulars.

Nutford—Darnall Bros' fine stallion, is also advertised in the BULLETIN. Nutford's sire has 103 sons and daughters in 2:30 list. See advertisement.

Alexandre—The fine stallion sold by Limestone Stock farm to New York parties last year, is also advertised in the WEEKLY BULLETIN and every Tuesday in the daily. His owner makes special offers, which should be considered by all owning colts by this horse.

THERE will be a public exhibition of stallions in Mayslick on Saturday next, April 16th, at 2 o'clock p. m.

WAS THE WATER POISONED?

Awful Suspicion of a Tiny Yacht's Crew at Sea.

SAVANNAH, April 10.—The yacht Syren Friday sailed for Bermuda, having been put in a seagoing condition. The voyage of this yacht from London is of great interest. The vessel is 50 feet long and of 12 tons capacity. Last October she left England in charge of Captain Purdy with three seamen for Bermuda.

The steam apparatus had been taken off and the hole left by the removal of the propeller made the vessel unusually hard to steer. The craft was fitted with only two sails and the chronometer put on board was so badly out of time that it was impossible for the captain to get his longitude.

The yacht was started for Bermuda, where, it was said, the owner had a plantation. The contract made was for three months, but after the crew had been out about 75 days the provisions gave out and the men made up their minds that the last cask of water had been poisoned. The captain lost his sextant and lost all means of locating himself on the seas.

Fortunately he reached the South Carolina coast. The yacht was towed into Savannah, reaching here after a voyage of 138 days. The vessel had been insured by its owner for \$10,000. Putting this together with the fact that the water had been so bad, all hands came to the conclusion that there had been a plot to have the vessel lost.

According to the boatwain's story, the crew came to the conclusion that such a plot had been formed when they began to get sick from the effects of the water, which turned blue when poured out of the cask into the air.

The boat has been refitted, the chronometer corrected and she is now in a better condition to meet the gales.

Indian Commits Suicide.

SIoux CITY, Ia., April 10.—United States Marshal Matthieson has just received notice that White-Face-Horse, the Sioux Indian chief who accompanied Two Strikes in his raid on Humphrey's ranch, in which the four cowboys were killed, had committed suicide Friday at a camp on White river by shooting himself through the head. Matthieson had him under arrest but was unable to move him because of a bullet wound that had caused mortification to set in, in his leg. It is believed the knowledge that his wound would prove fatal caused his suicide.

Aerolite Falls on a Monument.

OSAWATTAMIE, Kan., April 10.—An aerolite fell near this town yesterday afternoon, striking the monument to John Brown—or Ossawatimie Brown, as he was sometimes called—erected to him by private subscription originated by Horace Greeley in 1863. The meteor broke off the left arm of the statue and passed through the dome and nave in a slightly southeasterly direction, and through six feet of clay just south of the crypt, stopping only at bedrock. Experts say the aerolite is composed of pelium metal, known to exist only in the sun.

Deepest Dive on Record.

SEATTLE, Wash., April 10.—Captain John Christianson has made one of the deepest dives on record. He plunged into the waters of Elliot bay, and after 20 minutes returned with lead line and a bucket from one of the hatches of the tug Majestic lying at a depth at half flood tide of 196 feet. He apparently suffered no great inconvenience.

Another Homestead Worker Poisoned. NEW CASTLE, Pa., April 10.—Robert A. Henderson died here yesterday with symptoms of poisoning. Henderson worked in Homestead during the strike last July, and returned to New Castle sick and suffered with stomach trouble ever since.

Misses Ruby and Myrtle Cooper and Miss Anna Henson, of Salem Ridge, visited Miss Lulu Henson, of Stony Hollow, last week.

Who said he who knows not and knows not he knows not is a fool. We know such a person, but the one we speak of thinks he knows it all.

This is the time of the year when the house-cleaning craze seizes the females of the household. It is no uncommon thing, when passing along the public road, to see an old woman with a tobacco stick beating "L" and dust out of an carpet hung on a clothes-line.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
